Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address: P. J. ### He Accepted the Apology.

### The Welsh Note.

Here is what the Rev. John Evans tells us in reference to the way in which English was taught in Wales in the eighteenth century: "This school had several features unknown in the Welsh school of today. The Welsh note was one indispensable feature. This secured English conversation. It was a smooth piece of wood, like a flat inch rule, with the letters 'W. N.' carved on it. When any one was caught speaking Welsh the Welsh note was immediately handed to him, but the hand which held it at the end of the lesson was the one made to tingle in consequence, so it was a common occurrence for the child who had it to move about from pew to pew, craftily tempting others to speak Welsh. This sign of guilt therefore often changed hands until at last it rested in that which had to bear the burden of all the transgressions of that law."
